Dear Mr. Ditmore:

On April 9, 2015, the Kansas Department of Health and Environment (KDHE) received a request from Coffeyville Resources Refining & Marketing, LLC to align the dehexanizer unit (C-11228), semi-annual reporting period to match calendar year reporting (the reporting period in the current Class I Operating Permit – January 31 and July 31). Specifically, this request relates to the periodic reporting required under 40 CFR Part 60, Subpart Ja, Standards of Performance for Petroleum Refineries for Which Construction, Reconstruction, or Modification Commenced After May 14, 2007.

As a delegated authority, KDHE hereby approves the request as specified under 40 CFR 63.10(a)(5) to align the 40 CFR Part 60, Subpart Ja reporting to calendar year reporting. Please ensure that copies of reports, from any short reporting periods, are kept onsite for review during an inspection. All subsequent reports will align with the Class I reports due no later than January 31<sup>st</sup> and July 31<sup>st</sup> of each year.

If you have any questions regarding this approval, please feel free to contact me at (785) 296-1542 or by email at [tevens@kdheks.gov](mailto:tevens@kdheks.gov).

Sincerely,

Tim Evans  
Environmental Scientist
